The Pendulum.

Swing on old pendulum of the world,
Forever and forever,
Keeping the time of suns and stars
It's march that endeth never;
Your monotone speaks joy and grief
And failure and endeavor
Swing on, old pendulum, to and fro,
Forever and forever.

Long as you swing shall earth be glad,
And men be partly good and bad,
And each hour that passes by
A thousand souls be born and die—
Die from the earth, to live, we trust;
Unshackled, unsullied with dust;
Long as you swing shall wrong come right,
As sure as morning follows night.
The day goes wrong—the ages never:
Swing on, old pendulum, swing forever.

Agricultural Charity.

[From the Philadelphia Press.]

George Peabody gave one and a half million of dollars for the poor of London, and already does it seem that it fails to benefit the classes intended. The *Pall Mall Budget* pronounces the whole scheme a failure, and remarks that "this appears to be the destiny of most benevolent intentions." In spite of this unfortunate prospect, Mr. A. T. Stewart, of New York, is about to enter on some such another enterprise. He has already expended a quarter of a million, and is expected to spend two million of dollars on a hotel, to furnish working women with cheap board, and after it is finished, it is his intention to originate and perfect other charitable works of similar character. There is no doubt but that "charities" which have for their object the aiding of those who are really unable to help themselves, are a lasting good. Hospitals, insane asylums, schools, institutions for encouragement of art and science—these and similar objects are decided benefits to humanity; but such enterprises as these of Messrs. Stewart and Peabody, which are intended for able-bodied people, and partake of an eleemosynary rather than of an industrial character, aggravate the evil they purpose to cure.

There is a way in which these humane gentlemen might do an immense good, and benefit the poor and the country at the same time. It seems remarkable that no one has thought of or suggested it. We all know that one great source of the poverty and misery that exist, is in the disposition of poor people to crowd into cities, instead of going to, or remaining in the country, to take part in agricultural affairs. There is not work for half who are in the city—there is work for double in the country than what are now employed there. Our farmers' wives are worked to death. Young women will sooner half starve in the cities than hire out on farms. Instead of Mr. Stewart establishing an institution which can only result in still greater inducements for women to pour into the cities, can he not originate something that will induce them to go out into the country and take part in [illegible] our overworked farmers' wives? Could not George Peabody plan some scheme by which the wretched wrecks of humanity who now crawl about our towns in search of something to do, should have cheap homes in the country instead of in the towns? It is hard to see why not. At present our agriculture is in a transition state. Young men of mind do not like farming, because they cannot combine labor in great operations on the land. They must drudge themselves, or go to the city where they can rule and govern, as it were, in this sense. If there were men to be had—if they could combine the labor of men, leading it into the great channels which they feel they can do in the cities—the inducement to leave the country would be gone.

Donn Piatt writes that "The vexatious abuse of one's name makes a fellow sigh for that of Smith, or Johnson, or Jones. I remember once, when I was on the bench, I relieved the divorce docket by running through twenty cases in one day. Items were rare, and the papers took it up. For two weeks they came back to me, at first directly enough, stating that Judge Piatt had divorced twenty married couples in one day. Then it got to the Platt, then Pratt, then Spratt, and at last one fellow spelled it Splitt, and made himself uproariously funny over the propriety of the name."

The Chicago *Post* of Monday says: "The croakers who have every day for the last ten years, foretold the sudden decline of the movement in Chicago real estate, have now given up in despair. They have now conceded that if an earthquake does not swallow up the western, and the Indians do not take possession of the eastern, end of the Pacific road, Chicago will be quite a thriving little place after all. In the meantime the movement in real estate is indicated by sales of a million of dollars a week."

THE APPETITE FOR TOBACCO DESTROYED!

LEAVE OFF SMOKING AND CHEWING THE POISONOUS WEED, TOBACCO

ORTON'S PREPARATION!
ESTABLISHED 1866.

One box of Orton's Preparation is warranted to destroy the appetite for Tobacco in any person, no matter how strong the habit may be. *If it fails in any case the money will be refunded. It is perfectly safe and harmless in all cases.* It is almost impossible to break off the use of Tobacco by the mere exercise of the will. Something is needed to assist nature in overcoming a habit so firmly rooted. With the help of the Preparation there is not the least trouble. *Hundreds* have used it who are willing to bear witness to the fact that Orton's Preparation completely destroys the appetite for Tobacco, and leaves the person as free from any desire for it, as before he commenced its use. The Preparation acts directly upon the same glands and secretions affected by *Tobacco*, and through these upon the blood, thoroughly cleansing the poison of Tobacco from the system and thus allaying the unnatural cravings for Tobacco. *No more hankering for Tobacco after using Orton's Preparation. Recollect it is warranted.*

The time taken to allay all desire for Tobacco by the use of the Preparation varies *slightly* in different persons, the average time being about *five days*. Some have no desire for Tobacco whatever after using the Preparation *two days*.

The *Health* and *Purse* of every Tobacco user in the country calls loudly, ABANDON THE USE OF TOBACCO.

RECOMMENDATIONS.

The following are a few selected from the multitude of recommendations in our possession.

We, the undersigned, hereby certify that we have used Orton's Preparation for the purpose of destroying the appetite for Tobacco, and can assure those who are suffering from this habit that Orton's Preparation will certainly destroy the appetite for Tobacco *quickly* and *permanently*, and without any bad effect upon the health, and without creating an appetite *either for the Preparation or any substitute.*

W. P. Heald, Bangor, Maine; J. Moody, Southport, Indiana; E. M. Adkins, Knoxville, Tenn.; John Merrill, Bangor, Maine; J. Bunch, Springfield, Tenn.; W. D. Harrington, West Point, Georgia.

From Samuel Cessidy, Editor Journal & Argus.

Petaluma, California, Dec. 11, 1868.

For about twenty years I had used Tobacco in its various forms, and for the past eight years had been an inveterate smoker. Becoming satisfied that the excessive use of this narcotic was seriously impairing my health, I determined if possible to check myself of the habit. Hearing of Orton's Preparation for destroying the appetite for Tobacco, I sent to Portland, Me., for a box of the medicine, which I received through the mail on the 17th of November. A month has not elapsed and yet the medicine has effectually relieved me from any yearning or desire to use Tobacco in any form. The Preparation is not more difficult or unpleasant to take than to commence chewing gum. I conscientiously believe the Preparation will have the promised and desired effect in every instance where it is given a fair trial. Upon that belief and from an honest desire to assist those who wish to break away from the slavish appetite for Tobacco I offer this testimonial.

SAMUEL CESSIDY.

Beware of Counterfeits and all articles purporting to be like this, of the same name or otherwise. The great popularity of Orton's Preparation has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles. Purchasers will please order directly from the Proprietor, or his duly authorized Agents.

The price of Orton's Preparation is $2 per box, or three boxes for $5, sent by mail to any part of the country securely sealed from observation, with postage paid on receipt of price.

How to send money by mail.—Enclose the amount in a letter, seal carefully, register the letter and take a receipt for it of your Postmaster. Money sent by mail as above directed at my risk. Address

HIRAM SMITH'S
Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months to which it has been brought into public notice. The proprietor is so fully convinced of its INFALIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. E. MOORE,	NATHANIEL BELL,
A. L. WALLACE,	G. R. WARD,
Mrs. MONTGOMERY,	JOHN M. HOLLOWAY,
W. D. PORTER,	ROB'T RAMSEY,

And others in that vicinity.

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

PROSPECTUS

OF THE

Weekly Oregonian.

FOR 1869.

Nineteenth Volume!

Only $3.00 a Year.

By common consent, the OREGONIAN ranks first among the papers published in the Northwest. It is the oldest paper in the State, and its circulation and influence are greater than that of any other two papers combined. As a journal of enterprise in gathering the latest intelligence, and in giving in each issue a larger amount and greater variety of reading matter it has no competitor. It is thoroughly identified with this city and State and neighboring Territories, where the number of its readers and its influence are constantly increasing.

An unflinching advocate of sound Union principles, it at the same time pays special attention not only to MATTERS OF GENERAL INTEREST, but to everything of moment to the great

are published as full as in the California journals, and put before our readers from ONE TO THREE DAYS BEFORE ANY OTHER PAPER IN THE STATE.

Among its corps of writers are regular correspondents at New York and Washington City, men who, having lived in this State, are able to write on Eastern affairs, both politically and commercially from an Oregon standpoint.

Its Literary and General Selections are from the best sources.

EXTENDED AND RELIABLE

Commercial Reports

are furnished every week, giving the Financial, Dry Goods, Hardware, and General Market Reports of Portland, and the latest reports by Telegraph of the San Francisco and New York markets. These reports are acknowledged to be the most accurate published in the State.

In every department it will be, as it has been, the foremost in the State in the field of journalism. Being firmly established, it will go forward with confidence, making new plans for improvement and usefulness, and hopes to gain increased circulation and support.

TO THE UNFORTUNATE.
NEW REMEDIES, NEW REMEDIES
Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self abuse, solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz. Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by any of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are under any of these fearful maladies, should not delay the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give the patient a written instrument, binding himself to a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and impostors who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and because too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER. Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.

Those whose standing falls below 75, do not wear [illegible]. It is not thought advisable to publish their [names], as some of them, having been detained from school by their parents, cannot justly be censured for their low standing.

FROM VANCOUVER.—The Vancouver *Register*, which [should] have reached here Saturday night at the latest, [came] only last evening. We clip from it the following [items]: The firemen's election was held on Monday afternoon, May 3d, with the following result: J. Isaacs, Chief Engineer; Edward O'Keane, 1st Asst., and Richard [illegible], 2d Ass't Engineer.....Our friend Joseph Brant [of this city] has lately had left to him in Germany a fortune of $20,000 or $30,000. We congratulate him and all his family on their future prospects......Mr. Fletcher [illegible] us to state that S. W. Brown, Receiver, will [have charge] of the Land Office during his absence in the East, which will be about two months......Hon. A. G. Cole [illegible] overland from the Holladay excursion. [illegible] the 2d Judicial District......At this sitting of the [District] Court Messrs. Thomas A. McBride and J. [illegible] were admitted to the bar on examination and Messrs. J. C. Moreland and B. Killen on motion. These are young men of more than ordinary talent, and we [predict] for them a brilliant future......Through the [kindness] of Mr. N. C. Brown, we have been furnished with the following record of the temperature of the first five days of this month: 1st, 8 o'clock A. M., 62°; 12 M., 72°; 4 P. M., 78°; daily average, 70⅔°. 2d, 8 o'clock A. M., 60°; 12 M., 66°; 4 P. M., 71°; daily average, 66°. 3d, 8 A. M., 55°; 12 M., 62°; 4 P. M. 70°; average [illegible]. 4th, 8 A. M., 62°; 12 M., 70; 4 P. M., 75°; [average illegible]. 5th, 8 A. M., 58°; 12 M., 64°; 4 P. M., [illegible], 64⅔°. Average temperature for the five days, 66°.

—The directors of the Tualitin Navigation [and Tr]ading Co., with the exception of Captain [illegible], went up yesterday on a visit to the mouth of the Tualitin, to view the premises and to make the [arrange]ments for an immediate commencement of the work of constructing the proposed locks and canal. The [company] evidently means business. As a navigable stream the Tualitin will be one of the most valuable of all the [tributar]ies of the Wallamet. Captain Kellogg informs us that, an examination of the stream at low water, when boats could go on the Wallamet no further than [Canemah], and on the Yamhill no farther than Dayton, [showed] that there was no shallower water than eight feet, as far up as Centerville, on the northern branch. At the [same] water the boats can go up the middle or main branch to Forest Grove. It will thus be seen that at all [seasons] of the year the river will drain of its produce an extensive and rich district of country.

[PERSONAL].—Hon. B. C. Adams, State Senator from [illegible] county, arrived from California last evening, accompanied by his family. They came up by the steamer [of] last week, and have since been tarrying at Astoria. [They] are going on home to McMinnville in a day or two. They have been absent from the State since [last] Fall.

Mr. Wm. H[illegible], of the *Mountaineer* called on us yesterday. He is on his way home from Salem, where he has [illegible] been having a gay time since the Odd Fellows' celebration.

Mr. H. L. Applegate has been spending several days in this city.

We notice in town Mr. M. H. Abbott, of the Albany [illegible].

[illegible] C[illegible].—Last week we had accounts of a [heavy] snow storm which prevailed over several of the [Atlant]ic States, and the dispatches this morning speak of [a seve]re hail storm in the Mississippi valley which greatly damaged the fruit and vegetable crops. While all [this] was going on the Pacific slope was sitting almost in the lap of summer. In Oregon, far North of Pennsylvania or Illinois, we have for a long time had warm, bright and [beauti]ful weather, and while Pennsylvania was lying under her mantle of snow, and Illinois under a [pelting] rain of hail, we were seeking out the coolest retreats and sighing for even a cooling breeze. Who would live in Pennsylvania or Illinois! Who, in view of the [su]ch contrast, would not live in Oregon!

[illegible] TO LET.—If advertising is an index to the [business] of the advertiser—and nine times in ten it is—[Stitz]el & Upton must be doing a rushing business. [For] every morning they have some new farm, or lot or piece of property advertised "for sale," or "to let." That is the way to do business. If we have the right conception of the matter. The Scripture injunction, "Let your light shine," did not probably refer to a candle; it [meant], advertise your business in the daily papers, that men may take heed of you, etc. There is a new light this [morning] in Stitzel & Upton's corner.

[SONS] OF TEMPERANCE.—On the evening of the 8th inst. W. R. Dunbar, Deputy G. W. P. for Oregon, organized a [Division] of the Sons of Temperance, at Sublimity, Marion [county], called the Evening Star Division, No. 5. The following are the officers for the present term: W. H. [illegible], W. P.; Angeline Leigh, W. A.; Nathan Leigh, [illegible]; M. I. Smith, A. R. S.; Lucy S. Smith, F. S.; J. [illegible], Chap.; W. H. Hobson, C.; E. T. Perkins, A. C.; Elijah Leigh, Jr., I. S., and John H. Coy, P. W. P. This Division starts with 12 members.

U. S. CIRCUIT COURT—DEADY, J.—The following were the proceedings in this court Monday, May 10th:

John Catlin, assignee of the estate of John A. Daly, vs. Wm. Carrier. By stipulation of the parties this cause was tried by the court without the intervention of a jury; [argument] closed and set for argument at one o'clock [illegible]. Whalley for plaintiff; Stout for defendant. [Adjourn]ed till to-day at 10 A. M.

PICNIC.—The season of picnics seems to have fairly [opene]d, though rather late in the spring as compared with former years—probably on account of the rainy [season] of last year. In addition to those already mentioned, we notice that the teachers and pupils of the C[atholic] school at Salem will have their annual May Day [picnic] next Saturday. The students of the Wallamet University, will celebrate on the last day of this month.

SALE OF GOVERNMENT ANIMALS.—There will be an auction sale at Fort Walla Walla, on Friday next, of 120 horses and 117 mules, which have been condemned as [unservicea]ble. Each animal to be sold separately; terms cash, payable in U. S. legal tenders.

FOR ASTORIA.—The schooner *Farewell*, Capt. Ross, left this city yesterday with a large quantity of brick and salt and a number of Chinamen who are to be employed in the extensive salmon fishery of McCowan & Co., on the Columbia river.

THE CITY SURVEYOR.—Would it not be a measure of [economy] to make the City Surveyor's office a salaried one, and then require him to pay into the treasury the fees for work performed for private parties, within the city limits?

NEWSPAPER SOLD.—The *Unionist* newspaper, or rather the interest in the material, was sold last Saturday at Sheriff's sale, to satisfy a judgment. Mr. Huntington, the pr[esen]t proprietor, bid it in at about $2,600

LUMBER CARGO.—On Friday next the *Okanagan* will take the bark *Vidette* in tow from St. Helens for Astoria. The latter is loaded with 600,000 feet of lumber from the St. Helen Mills, for San Francisco.

RECORDER'S COURT.—Two cases, one for assault and battery, and one for grand larceny, were up before the Recorder yesterday morning, and continued till this morning.

TO LOAD FOR VICTORIA.—The bark *Rob[illegible]* Cowan has been laid on to load with produce for Victoria. She will take about 280 tons.

BRICK MAKING.—The proprietor of the East Portland yard has already about sixty thousand bricks ready to burn.

TEARING DOWN.—A considerable number of Chinese gentlemen were engaged yesterday in tearing down the small buildings on Alder street, which are to give place to the Odd Fellows Hall. The "Plough house" goes with the rest. The activity observable yesterday among the Chinamen was suggestive of the unearthing of a nest of rats. The buildings were purchased by Sham Fooey who intends to transport the lumber to China Flat, west of town, to be used in the construction of several magnificent Chinese hotels.

"GO AHEAD CO."—We observe in the list of recently organized White Pine Mining companies, one with the title of "Go Ahead Co." We suppose this name was taken by the company to contradistinguish it from the numberless companies which do not go ahead. The next should be the "Busted Up Co."—and that would doubtless be descriptive of nearly all the others.

A NEW COMPETITOR.—The down river boats are soon to have a new competitor—the steamer *Wenat*. She has been just launched from the ways at the Bone Yard, where she has been thoroughly overhauled and refitted. We learn that she will commence about the last of this week to make regular trips between Portland and the Cowlitz river. She belongs now to the O. S. S. Co.

STREET IMPROVEMENT.—Ash street is being graded and is to have a plank road way, from Front street back to its junction with A street. Ash is an important street in North Portland, and its improvement will be public benefit.

THE STATE CANNON.—It is a shame that the cannon belonging to the State should stand month after month unprotected on the Plaza. If it is anybody's business to take care of it, he should look at once. If it is nobody's business, then everybody should make it their business.

MEETING OF THE BOARD OF FOREMEN.—The Board of Foremen of the Fire Department will have a meeting at the Council Chamber this evening at half past seven o'clock.

THE NEXT STEAMER.—The steamship *Continental* sailed from San Francisco, for Portland, last Saturday, and may, therefore, be expected here to-morrow.

Religious Items.

Young Men's Christian Associations were established 17 years ago in Paris and Nismes. Now there are 60 of these associations in France, distinctly Evangelical, and infusing a needed vigor into the Reformed church. They publish a news paper at Nismes.

The *Episcopalian* has learned that there exists in Nassau street, New York, a "regularly organized literary bureau, which professes to provide clergymen with sermons, from any texts they themselves may designate, on very moderate terms."

Two more ladies adopted Judaism April 9th, in Chicago, and other Christians are receiving instructions preparatory to accepting the thirteen articles of Maimonides, and renouncing "the idolatrous practice of deifying the Galilean Jew, Jeshu ben Miriam."

The *Monitor*, a Roman Catholic paper of San Francisco, says there are fifty Catholics among Chinese of that city, and that some of them had been educated in the Catholic seminaries of China, and are well acquainted with Latin and speak it with some fluency. A late missionary at Hong Kong has been appointed to look after their spiritual wants.

Ben F Butler of Mass.

The Washington Correspondent of the Cincinnati *Gazette* thus writes of "Ben. Butler."

The readers of the *Gazette*, I presume, have heard of Butler. If I recollect right I think he has been somewhat abused, and I should not wonder if the people entertain rather a poor opinion of him. Upon the whole I suppose he is unpopular. Well, I always like to be able to say something good of such men, and I now say that Butler is the ablest and most useful member of the House. As to his motives I say nothing. I must judge him by his acts. Brains will tell. He has brains. Vigilance will tell. He is vigilant. Butler attends to the business of Congress as a first class lawyer attends to a case in Court. First, he makes himself thoroughly acquainted with it, and then he watches it at every point. He is always in his seat, except when he is in the committee room, and he is never in the committee room when any important measure is before the House. In fine he knows all about everything that is worth knowing, and he acquires this knowledge by devoting his whole time to the business of Congress. Some members content themselves with making set speeches, or going in on some particular bill; but Butler is familiar with everything that comes up, and if there is a weak point anywhere he is sure to see it, and go through it. Butler is bound to be the leader of the House. Nominally, the Chairman of the Committee on Appropriations is leader, but Butler, having brains, industry, knowledge, and any amount of assurance, is the leading man. It is only to be regretted that there are not a dozen men of Butler's ability and industry in the House. It is still more to be regretted that some one like Butler is not in the Senate. He would be a bombshell in that body.

I was in the House Saturday morning, at 2 1-2 o'clock, when Schenck let into Butler. It was an all night session. You know the feeling between Schenck let into Butler is not of the most amicable kind. The question before the House was the amendment to the Tax bill. Schenck had an hour at the close. He parceled out thirty-two minutes of this, but took care not to give Butler any portion of it. Twenty-eight minutes he reserved for himself. The greater portion of this he used to pitch into Butler, and he did it well. He had studied it, and therefore it was dignified and able. Butler got in a side lick once in a while, each one of which cut like a razor but he was tied down; he could not reply. Schenck was making the closing speech of the session. Congress would not meet again until December. It would be a long time, therefore, before Butler could get a shot back.

But Butler will be heard from, if it takes a year.

You know Butler has thirty-six volumes of telegraph dispatches that he captured when serving on the Impeachment Committee. These extend back several years. Butler saw that Senators and Representatives were implicated in various jobs, by dispatches which had fallen temporarily into his hands. He immediately caused copies to be made, and had them bound up and safely put away. He has evidence enough there to kill a great many men whenever he chooses to use it. Hence a great many people are afraid of Butler.

SEVERE BUT JUST.—The New York *Sun*, discussing the income tax, thus describes that portion of highly respectable people who evade the law:

There is a curious theory on this subject of paying taxes to the government current among well-to-do people, who would be shocked at any charge of personal immorality. They meet their notes punctually enough; their landlord never has to call twice for his rent, and their butcher, their baker and their grocer are satisfied with a similar promptness. When a tax even is put upon them in such a shape that they know it cannot be dodged, they draw their check for it like men. They may be seen at the tax receiver's office in the Park, waiting in long lines for a chance to anticipate the amount assessed by the city on their real estate, and thus save a few days' interest. * * * * * With our form of government, which is carried on by the people and for the people, we are all partners together; and when any one keeps back the share due from him to help defray the national expenses, he simply cheats the rest of us out of enough more than our proper quota to make up the deficiency. And it makes no difference whether this comes to pass by positive lying or by the silent trickery of withholding one's name and address from the assessors of internal revenue. We therefore charge upon the rich men of the country who either make no income returns, or make them untruthfully, the guilt of swindling their fellow citizens. They are morally as much thieves as the pickpocket or the shoplifter.

CROP PROSPECTS IN CALIFORNIA.—The Merced *Herald* of May 1st says

The dry, windy weather which prevailed a few days past cannot but be very detrimental to crops, especially those sown late, and without more rain may injure the farming interest to some extent.

The Shasta *Courier* of the same date has the following

Within the past few days we have conversed with quite a number of farmers from different portions of the county in relation to the condition of the growing crops, and were surprised to learn that the prospects for a plentiful harvest are decidedly unfavorable. Wheat, barley and oats are commencing to head out short, and the stem is generally stunted and slender. Plenty of rain seems to have fallen, but it did not come at the right time. The cold winds which generally prevailed this spring for several days after rainfalls, also injured and retarded the growth of the crops.

Literary Items.

King John of Saxony is about to give lectures on literary subjects before selected audiences. It is understood that he will not accept an offer from Mr. Fisk to read in this country.

Maximilian's library was sold for four thousand dollars more than it had cost. The Emperor of Austria is censured severely in Germany for not keeping the library of his brother.

Louisa Muhlbach devotes her time to writing from 8 A. M. to 4 P. M., dinner, 4 to 6, theatre or society, 6 to 10, sleep, 10 to 8. She saves no time for thinking; in fact she doesn't require any to produce her books.

The copy of Eliot's Indian Bible, which was sold in a "lot" for £2 10s at the Hastings library sale, appears in Mr. B. Quaritch's last catalogue, priced £120, and was immediately ordered per cable by an American collector.

The unpublished correspondence of Sir Walter Scott with George Ellis (the poetical antiquary,) comprising fifty nine letters in Sir Walter's autograph, sold lately in England for only £22.

A Frenchman, by name M. Charles, claims to have in his possession more than two thousand letters of the famous Galileo, which he is preparing for publication. He also announces the philosopher's first work on the decomposition of light, from a copy which formerly belonged to Newton.

Fireman's Notice.—The Board of Foremen are requested to meet at the Council Room, this (Tuesday) evening at 7½ o'clock.

Chief Engineer P. F. D.

KANE'S CONDENSED SOAP is not put up in cans, but is sold in one pound bars each of which is sufficient for four or five ordinary washings. It does the work without any rubbing, and will not injure any article of clothing. It is an entirely new compound, and the Company hereby bind themselves to pay five times the value of any article that is injured by it. Ask your Grocer for Kane's Condensed Soap. None genuine unless bearing the imprint of the Company. For sale at the following places: Messrs. Allen & Lewis, Corbitt & Macleay, Kinnett & Harnel, R. G. Sneath, Mr. Hetrall, McLeran Bros., Labbe Bros., Delschneider Bros., Stuber & Neal, Van B. DeLashmutte, A. Oatman, Hermann & Murphy.

OFFICE—Southwest corner Front and Yamhill streets, opposite E. J. Northrup & Co.'s Hardware Store.

I am now making, amongst other numerous styles of ARTIFICIAL TEETH, the improved Vulcanite Plates of Dr. J. W. Cool's Patent, patented Dec 3d, 1867, the improvement of which consists in lining the entire concave surface with fine gold. It not only makes the plate double as strong but cleanlier than the common Vulcanite Plate. It also can by it be made considerably thinner and lighter, whereas the price is but little above that for common Plates. Call and see specimens.

N. B.—Dentists wishing to secure the office right for Dr. J. W. Cool's Improved Vulcanite Plates, can have it made out to them by applying to the office.

N. B.—To strangers I would say, that a constantly increasing Dental Practice for the last five years in this city, will be a sufficient guarantee for them to receive a First Class and Finished Piece of Work. Numerous testimonials to the same can be given at the office.

The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. TUESDAY MORNING, MAY 11 1869

Climatic Advantages.

It seems sufficiently surprising to many of the people of Oregon that there is such general ignorance in the Eastern States regarding the climate of the Pacific coast. Many people at the East still appear to be incredulous when they are told that in a latitude so high as Oregon there are winters during which ice is never formed, and that it is an exceedingly rare thing for the mercury in the common thermometer to sink so low as zero. If they are assured that these are undoubted facts, they often express surprise, and are quite unable to account for them. It is really astonishing that at this day there should be so many people who know nothing about these things. One would suppose that by this time everybody ought to be aware of the mildness of the climate on the Pacific coast, and to know the reason of it. Yet there are many who never heard that southerly winds prevail here in the winter months, bringing our abundant rains and preventing the rigors of winter, and who are entirely ignorant of the fact that there are ocean currents which contribute to produce the higher temperature of the Pacific coast, the same as the Gulf Stream moderates the climate of England and Ireland. In a recent treatise on ocean currents the following occurs:

There exists in the Pacific a stream acting under nearly similar conditions with that of the Atlantic side. Maury in his *Sailing Directions*, satisfactorily explains the moderate temperature of the North Pacific by the immense warm ocean current flowing from the coasts of India and China toward the American coast. "This stream," he says, "escapes from the Straits of Malacca, and, being joined by others from the Java and China Seas, pours out into the Pacific like another gulf stream between the Philippines and the shores of Asia, whence it attempts the great circle route for the Aleutian Islands, tempering climates and flowing toward the northwest coast of America;" and he then proceeds to describe the points of resemblance between this ocean current and the Gulf Stream of the Atlantic. The Pacific stream may even be traced for thousands of miles by its temperature, and even the altered color of its waters. It sweeps over from the Japanese coast toward the north, against the bend of the continent, to Russian America, where it is turned to the southward along the coasts of Oregon, California and Mexico.

When people in the Eastern States become fully acquainted with the facts regarding the mildness of our climate,—facts which they are [illegible] unable for not knowing long ago,—[illegible] will be attracted hither for the purpose of [illegible] from the rigorous winters of the [illegible] and upper Mississippi valley. As [illegible] with them, we have no winters except in name.

Bourbonism in Ohio.

The Democrats in the Ohio Legislature have an accidental majority, and are still using it, contrary to the Constitution of their State, to carry out their Bourbon ideas. They have passed a new "visible admixture bill" to prevent any person tinged with negro blood from voting at any election in that State. Last year they passed a similar law, but the Supreme Court of the State pronounced it unconstitutional, and it came to naught. They now re-enact it, with heavier penalties. This beautifully illustrates their regard for the Constitution they profess so much to revere. In Ohio all persons of mixed blood and nearer white than black, have always voted, and such persons still retain the right of suffrage. Perhaps this Legislature will next pass a new act to still further disfranchise the disabled Union soldiers of the State. They feel that it is necessary to make the most of their brief lease of power. This Legislature was elected in 1867 by a minority of the people of Ohio, and at the last election the Republican majority in the State was over 40,000. In October next, another election will be held and Ohio will then have a Legislature which will repudiate all the Bourbonism of the last two years, ratify the suffrage amendment and relieve the State of its reproach. Ohio does not elect a Democratic Legislature more than once in ten years, this being as often as the people require a taste of Democracy.

Small Notes.

"Patrons of Husbandry" is the title of a very popular and beneficial new Order among farmers, and which is in a highly flourishing condition throughout Minnesota and several other Western States. Each community or district has its "Grange" and these Granges form a grand co-operative institution of husbandry for the special, material benefit and enlightenment of the farmers.

The money market in the United States is just now unfavorably affected by financial perturbations in Europe. Under these influences the premium on gold has recently advanced considerably. The rate of interest has risen unusually in England and Germany, and this, of course, tells upon the market value of United States securities both abroad and at home. Political complications in Europe are said to be at the bottom of this unusual advance in money.

Connecticut is the sixteenth State to ratify the suffrage amendment. Three of the New England States, Rhode Island, New Hampshire and Vermont, are yet to act upon it. Several other States, as Iowa, Nebraska, Ohio and Tennessee, are also certain to ratify it by their next Legislatures. Virginia, Mississippi and Texas are to ratify it before they can be admitted to the Union. There is no probability that its adoption by the requisite number of States will be delayed much beyond the present year.

Andrew Johnson in a late speech, after getting through his familiar exodium about the offices he had filled, dropped into history and made some remarks which can be accounted for only by the supposition that he is insane, or was under the influence of that invisible spirit of the cup which Cassio could find no other name for but "devil." "I was President," Johnson said, "before Lee surrendered." There is probably not a citizen of the United States, beside the ex-President, who does not remember that Mr. Lincoln lived to rejoice over the surrender of Lee, and made one of his most remarkable speeches at the public celebration of that event several days after.

Of the commerce of the upper Mississippi valley, an Iowa paper says: "St. Louis having waked up a little of late, and made considerable demonstrations in the way of railroad bridges, giving right of way for railroad tracks to the river, building grain elevators, and establishing water lines for freighting grain to New York and Europe, Chicago is becoming alarmed about it, and is trying to turn the new-born enterprise of the former place into ridicule. But St. Louis has the position; if she will extend her roads into the heart of Iowa, Kansas and Nebraska, and get her cheap water-lines established on a permanent basis she will be the big town of the Mississippi Valley. Looking at it as we do from this point, where thousands of broad acres would pour their millions of wealth into her coffers, were it possible, it is a matter of surprise that she did not realize this important fact years ago."

OREGON

The new Court House in Douglas county is to cost $11,000. It is to be finished and ready for use by October, 1870.

The *Courier* says that at McMinnville there are eight new houses in process of construction at this time, and quite a number of persons are hauling lumber with which to build.

The stockholders of the Oregon Central Military Road will hold an election at their office in Eugene, on the 24th of this month, for the purpose of electing a board of officers, and voting upon a proposition to increase the capital stock of the company to $200,000.

The Roseburg paper says: On the 21 instant Melvin Roberts, aged about nine years, youngest son of a widow Roberts, residing in the southern part of this county, was drowned in the Umpqua river at the mouth of Canyon Creek while attempting to cross the river.

The country about the mouth of the Umpqua river, including Smith river valley, is said to be improving more rapidly than it has been for several years past. The increased capacity of the Gardner mill has increased the demand for logs, and every location that offers even small encouragement for the logger or farmer, will be occupied during the coming summer.

The *Democratic News* of Jacksonville, speaking of quartz mining operations in Southern Oregon, says that there are a number of good paying ledges within the county, no one possessed of a thorough knowledge of quartz mining will be so foolish as to doubt. The Timber gulch lead is now furnishing the most flattering prospects, simply because its owners are applying the true test, as proven by all reliable experience—that of *going down* on the lead.

The Oregon City *Enterprise* says: Capt Aaron Vickers and Engineer Felix Evans will take their departure from this city on Monday morning, for a venture on Pen'd Oreille which will be worth recording. They go to bring the steamers now lying above Rock Island to Pen'd Oreille Lake. They will be obliged to navigate some swift water, and the trip will be one of marked adventure, more interesting perhaps than any similar event which has ever occurred.

A Southern paper states that William E. Miller, of California, last week purchased about twenty-five hundred acres of Government land lying in the vicinity of Port Orford, with a view of erecting a mill at that place. The extensive forests of fine cedar timber adjacent to Port Orford make it one of the most favorable locations on the Pacific coast, for the erection of a lumbering establishment, and with the reopening of the lumber trade at that port, a new era of prosperity will be inaugurated for that portion of Curry county.

The Oregon City paper contains the following: The double decked fire engine—formerly the pride of McLaughlin Company, No. 1, of *this city*—is now turned out to grass, and some notice of her may not be amiss, so we have decided to briefly touch the principal points in her history. As above stated, she is what firemen denominate a double-decker—with end stroke, and she throws two streams. The first we hear of her is that some time during the 1830's she stood as No. 4, in the city of Baltimore, Md; next, some time in the '40's she stood as No. 6, of New Orleans, La.; then during the '50's she stood No. 8, of San Francisco, and about the year 1857 was introduced as No. 1, at Oregon City.

The *Unionist* says: A friend has called our attention to the Nehalem Valley, drained by a small river by that name, which rises in the coast range and runs westwardly into the Pacific ocean. The mouth of the river is about forty miles below Astoria, though the head of the stream is but twenty-five miles south of that city. There are two valleys on the river, separated by a deep gorge or canyon, through which the river runs. The lower valley is already settled by a few families, though there is room for many more. The upper valley has not yet been settled. It is estimated that two hundred families could be accommodated with homes in the valley. In some places the level land is not more than a mile wide, while in others it is ten miles from mountain to mountain. The soil is represented as being very fertile. In the lower valley the land is covered with the stalwart berry bush, willow, etc., while in the upper valley hazel brush is the principal growth. Oak does not grow in the neighborhood. At one place there is quite an extensive tract of alder land, covered with large alder trees that would make a superior article of lumber for furniture.

THE WEST.

The *Tidal Wave* complains of the "tightest times" for money ever known in Owyhee.

A post route has been established from Maggie Creek (Carlin), Nevada, *via* Silver City to Boise City, Idaho.

Mr. Ray (Dixie), the original discoverer of the Hayf & Ray (Poorman), left Idaho a few days ago to try his fortunes at Elko.

The rate of legal tenders at San Francisco for the present month, for Internal Revenue purposes, has been fixed at 75½ cents gold.

A waggish miner in Idaho proposes a meeting to compel the merchants to lay over their books for another year, after the manner of laying over claims.

The Boise *Statesman says Gov. Ballard has* returned from the Fort Hall Reservation, and states that the Indians are satisfied with their new location. Several Bannacks and Sheep Eaters remain out, *but promise to come in and live on the reservation.*

The Sacramento *Union* says, "the San Francisco Land-Grabbers' Association are doing much toward the rapid settlement of this State by monopolizing all the good lands in sight, and raising their price from a dollar and a quarter in currency to $10 in gold." Nearly all the available lands of California are in this fix.

During the month of April the sales of land in the office of the San Francisco District amounted in value to $80,351 34—the price paid for nearly 70,000 acres of the public domain—and declaratory statements were filed by nearly 100 persons who intend to purchase nearly 1,000,000 acres as soon as the proper documents can be filed.

Last Tie, Spike and Hammer.

The Sacramento *Union* of the 5th inst. has the following:

There was brought up from San Francisco last evening by the Pacific Union Express Company a railroad tie, full size, manufactured out of California Laurel, highly polished, and presented to the Central Pacific railroad Company by West Evans, their contractor for furnishing ties. It was examined during the evening by hundreds of people, whose curiosity was attracted, not only on account of the interest occasioned by the use to which the tie is to be put, as the last laid on the Pacific Railroad, but also by reason of the beauty of the wood. The silver plate upon it, seven inches long by six wide, bears the following inscription: "The last tie laid on the completion of the Pacific Railroad, May, 1869. Directors—L. Stanford, C. P. Huntington, E. B. Crocker, Mark Hopkins, E. H. Miller, A. P. Stanford and Chas Marsh. Officers—Leland Standford, President; C. P. Huntington, Vice President; Charles Crocker, Superintendent; Mark Hopkins, Treasurer; E. H. Miller, Secretary." This tie will be forwarded by the special train this morning. The same train will also convey to the "front," for use in the ceremonies of completion, a beautiful and valuable golden spike, suitably inscribed, presented to the Railroad Company by D. Hewes of San Francisco. The Pacific Union Express Company furnish the hammer with which the last spike will be driven; it also will leave for the end of track this morning. There also arrived from San Francisco a handsome golden spike, presented to the Railroad Company by David Hewes, of San Francisco. On the Head is the inscription: "The last spike." On one side, "The Pacific Railroad, ground broken January 8th, 1863, completed May —, 1869." On another side, this sentiment, "May God continue the unity of our country as this railroad unites the two great oceans of the world." Also "Presented by David Hewes, San Francisco." The other sides bear the names of the Directors and officers of the company. The spike is a fac simile in size and shape of the ordinary six inch spike, to the point of which was attached in the casting a nugget of about the same length as the spike itself, which is designed to be broken off at the time of the completion ceremony, by the President of the road, to be used probably in the manufacture of mementoes of the occasion for the officers of the corporation. The value of spike and nugget is $414.

The Union Pacific Express Company furnish the hammer which is to drive this spike.

DISPATCHES TO THE OREGONIAN

DATES TO MAY 10.

Washington News

CHICAGO, May 8.—The *Tribune's* Washington special says that quite a struggle exists among the men from the Pacific coast, about applicants for the sub-Treasury at San Francisco. The President nominated Cheeseman, but his name did not reach the Senate and he will probably be renominated.

A list of sixty two army officers detailed to perform the duties of Indian Agents and Superintendents, will be published shortly. This order will virtually remove nearly all the Indian officers now in place, except a few Quakers lately appointed. Among those removed is one man Keist—in office by rejection of the Quaker nominee. This order is in accordance with the law creating the Indian Bureau, which authorizes the President to detail officers of the army to perform *the duties of Agents.*

Secretary Boutwell is having a full inventory made of everything connected with the printing bureau. He will sell the dies, plates, etc., not needed. Clark, while in the bureau, accumulated *large quantities of these things, which amounted* to nearly half a million dollars in value. The operation of this bureau, now suspended, will be resumed in about a month.

The Cabinet did nothing relative to the Cuban question. The Secretary of State declares that there was nothing before his department showing that any expedition had left this country. He looked upon the newspaper reports as having some foundation, but they are greatly exaggerated, and he added that Spain has never officially informed the Government that there was any insurrection in Cuba, and it would not be expedient to issue a proclamation of neutrality.

The President and the Cabinet have finally decided against the proposed real estate negotiations with Mexico. It appears that during the last Administration some such scheme was proposed by Romero and Seward, who gave it favorable consideration.

Secretary Boutwell's official figures show no reason against taking steps towards a sinking fund. It appears that the debt has increased $25,000,000 from November 1st, 1867, to November 1st, 1868, and up to May, 1869, had further increased to $37,500,000.

The Commissioner of Patents has extended the Rhodes patent for leathering the heads of tacks. It appears that 60,000,000 of these tacks are daily consumed in the United States.

The report of General Warren, of the Pacific Railroad Commissioners, will be ready in about ten days. It will be one of the most exhaustive yet submitted, and will condemn certain portions of the road west of the Black Hills.

No more Presidential appointments to postoffices in California will be made, except in case of resignations, till 1870. In the second district no changes in either class of postoffices will be made, *except on the recommendation of Cole as Senator,* at the request of Sargent.

Secretary Boutwell has taken into consideration the lease of the Custom House property to Buckbee & Williams, with a view, if necessary, of recommending Congress, next December, to set aside.

Both the Secretary of the Treasury and Commissioner Delano have given positive assurance that Bail shall not be disturbed as Revenue Supervisor of California and Nevada.

Several appointments of special customs agents have been made by the Secretary of the Treasury, including a brother of Representative Schenck.

The headquarters is at New Orleans for Brevet Major General Robinson, Colonel of the 14th infantry.

A colored delegation from Alexandria had an interview with the President to day concerning appointments at that place and told him something about the feeling of the colored people on the subject. The interview was satisfactory to them.

It has been decided that dealers in liquors, who sell quantities of five gallons and upward, must pay the wholesale and retail tax.

Bridge at St. Louis.

ST. LOUIS, May 8.—The report that the project for bridging the Mississippi river directly opposite this city has been abandoned and that the bridge will be built just above the city, is authoritatively denied. It is further stated by authority that work on the bridge at the foot of Washington Avenue, will be pushed forward with increased vigor. It is expected the piers and abutments will be finished within a year.

Billiards—New York Items.

NEW YORK, May 8.—At the billiard Tournament, *Rudolph beat Snyder in the afternoon*, the playing being anything but first rate. In the evening Rudolph beat Foster, 1,200 to 1,091. Randolph's average, 22 1 9. The roughs persisted in attempting to annoy Rudolph, as in the previous game with *Foster*. On Monday evening, Dixon plays McDevitt at French billiards, three hundred dollars.

The *Henry Chauncey*, from Aspinwall on the 1st, has arrived.

A *Tribune* New York special says the services at Trinity Church and other ceremonies in commemoration of the opening of the Pacific Railroad, have been postponed to Monday.

Several passengers arrived this morning, eight days from San Francisco. They say much work must still be done to put the road in good order.

The announcement that Durant and others had been cornered by the workmen of the Union Pacific Railroad caused much alarm among bond holders; but the officers announced that the matter had been satisfactorily arranged to day.

The Cuban sympathisers think that two vessels with arms and men have just left Boston, and that another vessel sailed yesterday from a Southern port.

NEW YORK, May 9.—The Sunday papers state that no Cubans took passage on the Hamburg steamer for Bremen, from Jersey City. It is the general impression that outside of that report they were transferred to a vessel bound for Cuba.

A serious riot occurred at Hudson City, last evening, between English miners and a crowd of Irishmen. A number of persons were injured and two parties fatally. A number of arrests were made, but the parties were after admitted to bail.

Vice President Gibbons and the Executive Committee of the Fenians published a card, denying the *World's* statement that they are negotiating with the Cuban Junta for the transfer of forces to the Revolutionists.

PITTSBURG, May 9.—A fire at midnight in McKee's port, near this city, destroyed property to the amount of $60,000.

Advices from Cuba

WASHINGTON, May 8.—The Navy Department has received dispatches from Admiral Hoff, dated *off Havana, May 1st, stating that 180 troops under* command of Gens. Letona and Escolarte, arrived at Neuvitas on the 17th of April, from Villa Clara. The next day, Gen. Lesca appeared at Neuvitas with 1,200 men from Puerto Principe, *having left a detachment of 1,000 on the road.* No resistance was met with on the march, though large bodies of insurgents were posted on the hills at some distance from the road, and a number of well constructed trenches, breastworks, etc., were visible. There are 4,100 men concentrated at Neuvitas, including 1,500 Catalonia volunteers recently from Spain. They will immediately commence operations along the railroad between Neuvitas and Principe. About 1,500 started April 3d, conveying provisions and trains. This expedition, under Gen Lesca, will repair the road and provision the troops at Principe, who are said to be on half rations.

It is reported that Quesada, the revolutionary leader, has allowed the Spanish to march without opposition from the interior to the coast, but intended to obstruct their return and capture the provision train.

Admiral Hoff forwarded reports from Lieutenant Commander Eastman, of April 28th, at Corrial Keys anchorage, for the Port of Remedios.

The Carribean prisoners taken from the *Lizzie Mayor* and sent to Carribean, were released. The Spanish authorities at that place offered no courtesies or facilities to the *Penobscot*, as is customary on the arrival of a foreign vessel. This omission was perhaps more from ignorance than design.

Gov Remilios informed the Consulate at Carribean that he must not hoist his flag on the Consulate office again.

In consideration of affairs in that country, where Americans are holding millions of property and fearing injury from the volunteers, Commander Eastman concluded to remain there some time. Admiral Hoff requested General Dulce to allow the American flag to be hoisted over the Consulate at Carribean.

Roberts, the Spanish Minister, has informed Secretary Fish that the steamer *Quaker City* was about to sail from New York for Cuba with munitions of war for the rebels. The Secretary of State requested the Secretary of the Treasury to issue an order to prevent any violation of the neutrality laws.

It appears that on Tuesday there sailed from New York a vessel chartered by the Cubans, containing war material and three hundred men. Her clearance papers show her destination is to Jamaica or some peaceable port, and that the prohibition in relation to arms has been ceased, as has frequently been done before with the knowledge of the Spanish Consulate.

Pacific Railroad Matters.

PROMONTORY SUMMIT, May 10—12 M.—*To the Associate Press, East and West:* The last rail is laid, the last spike is driven—the Pacific Railroad is completed. The point of junction is ten hundred [and] eighty six miles west of the Missouri river and six hundred and ninety miles east of Sacramento.

(Signed) LELAND STANFORD, Central Pacific Railroad.
SIDNEY DILLON,
JOHN DUFF,
Union Pacific Railroad.

Twenty sleeping cars for the Pacific Railroad are nearly finished in New York and Philadelphia, and will start West next week.

From Panama

NEW YORK, May 9. The steamer *Henry Chauncey* brings the following news from Panama: Small pox was making fearful ravages, though it is thought to be diminishing. It attacked the negroes and whites inside and outside the walls of Panama. The Sanitary Committee was actively engaged in checking the scourge.

A gang of counterfeiters are circulating large quantities of bogus American and other coin in Panama.

The cotton warehouse of Egbee & Weisel, at Corvallis, was burned. Loss, $40,000.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, May 10.—The driving of the golden spike in the last tie of the Pacific Railroad to-day, was announced by nine strikes of the City Hall bell and the firing of a large gun at Fort Point.

A little girl, daughter of Mrs. Shipley, fell from the second story window of the residence of Mr Quinl, on Pacific street yesterday, receiving injuries which proved fatal.

A little child, name unknown, was severely, if not fatally scalded yesterday, at the residence of Mrs Boyon, Bryant street, by a boiler of hot water upsetting over her. The flames from the stove communicated with the house, but were soon extinguished.

An Italian fisherman, Alameda, was arrested last night for throwing a stone at a boy, who was playing on one of the piers. The stone struck the boy on the head, inflicting a severe injury and knocking him into the bay, from where he was rescued with much trouble. A charge of assault with a deadly weapon was booked against Alameda.

Mining Stocks

The Savage Mining Company this A. M. declared a dividend of four dollars per share for the month of April, amounting to $64,000, payable on Monday.

Mining stocks are rather weak, the scarcity of money unfavorably affecting values.

CARSON, May 10.—All the large blasts at the Santiago mill on the Virginia and Truckee railroad were let off at twelve o'clock to day, in commemoration of the last spike being driven in the Pacific railroad. A general spirit of rejoicing is felt by the community. Flags are flying, etc.

VIRGINIA, May 10.—The completion of the overland railroad was duly celebrated by our people, with all the noise at command that would make manifest the great joy they felt in the completion of the great national highway. The festivities of the day were concluded with a torchlight procession by the firemen making a fine display. Our firemen who went to Sacramento to participate in the celebration on Saturday returned last evening, and report a good time generally.

A lady attempted suicide at Gold Hill to day by cutting her arm with a razor; cause, grief at the loss of a child.

BERLIN, May 9.—The Congress of German Protestants met at Worms on the 11th. The object of the meeting is to consider and frame a *reply to the recent appeal of the Pope to the Protestants.*

FRANKFORT, May 9.—United States bonds have partially recovered and become firmer during the day. They closed at 85¼.

Curiosities in Advertising.

The following highly important announcement recently appeared: "Detective—Gentlemen or *ladies requiring the services of a gentlemanly expert for working up cases of a private nature,* should address ——. Unfaithful husbands and wives looked after. Best references. Utmost secrecy. Moderate charges."

In the Georgetown Mirror, Melvina says of her Frank:—"NOTICE—Frank S. Butler advertises me as having left his bed and board. This a mistake, as I own the bed and took it with me."

The next sounds like an occasional personal in the *Herald*,—"Oh, My Derest Maley i will tri to ancer your Deer letter. O how my throbbin heart Doos ake to Embrase you onse more. O you Darling Rosy Bud wont you marry me. i here the eko ancer i wil. Don't let that Ugly thing take you a Buggy Riding agin. O now i felt the first time we touched our lips tngether. O how my hole frame did quiver but i must stop or i will go crazy. O how we will divide the comforts and sorrows of life Ancer rite of from your George."

No one of any gallantry (and who is disqualified by marriage from answering the requirements himself) can do less than heed the following "ad" from the *Tribune* of a late date:

"To Rent—A lady, whose husband is often absent, wishes to rent to a bachelor or widower, a nicely furnished parlor. Must be agreeable, etc. Address, for three days, 'Mad,' West Side Post Office."

"Artificial Infants are thus announced in an exchange:

"ARTIFICIAL BABIES FOR TRAVELERS. "*Armed with an Infant one is admitted to First-class Cars and Saloons.*

"The tariff of prices is as follows:

"Common traveling infants, yielding intermittent cries of fear, and capable of being put into the pocket, $2 50.

Second-class, crying not too loudly, but lamentably and insupportably, $5.

Third-class, full squaller, with a very piercing and aggravating voice of five octaves, $10.

The same, arranged as a prompt repeater, $12.

Fifth-class, first quality, capable of continued squalling, $15."

A character for matrimony is offered in the following terms:

"TO UGLY WOMEN.—A young man who has run through all his property, but now sees the errors of his ways, and *is a reformed character, wishes to* marry and settle. He would wish to settle any fortune that his wife might bring with her on herself, with remainder in the hands of trustees to the survivor for life. Any lady of strictly moral *and religious principles and affectionate temper*ament, whose inclination for holy matrimony has, notwithstanding peculiar influences (say $100,000) been opposed by disadvantages of personal appearance, may secure a fond husband, who is *considered very handsome, but*, being himself indifferent to externals, regards only those qualities in a married partner that are truly valuable."

FAT TAKE.—By the following from the Marysville *Appeal* it will be seen that the Democratic organs of that State as well as those of Oregon, know how to make a good thing out of the public printing:

The salt marsh and swamp and tide lands belonging to the State, in San Francisco, are advertised for sale at auction, on the 2d day of June. There are ninety nine full blocks of this land. This sale is advertised in the *Union*, *Examiner* and *Reporter*. The former paper sets it in such type and style as makes it measure 80 squares, which, at $6 per square, amounts to $480 for the month. The *Reporter* spreads it into 282 squares and charges $1,692. The *Examiner* spreads it on thicker still, making 327 squares, and charging $1,962. As the people foot the bills, and as the Democratic party organs are all in favor of economy, (when their pockets are not touched) we *suppose it is all right.*

THE RAILROAD TERMINUS.—By the arrival of the steamer *Oriflamme*, it will be positively known where the Railroad Terminus on the Sound will be established, and before long an army of men, equal to that of the grand Pacific Railroad, will be employed, who will build the road with all possible speed. The Depot without further doubt, will be established at the well known house of KOHN & FISHEL, No. 91 Front street, where the finest, best and most stylish Clothing, *Gents' Furnishing Goods* and Dry Goods can always be had, at such low prices that the most crabbed purchasers must be pleased.

Call at "The Oregon Dispensary" for your Spring Medicines, for they are all pure, fresh and cheap and will be compounded for by the most eminent of the Medical Faculty in the city. Everybody patronizes the "Oregon Dispensary" in consequence of the above fact, and there are five assistants to attend to the wants of our patrons.

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. B. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

Important Telegraphic Project.

WASHINGTON, May 7.—Governor Curtin, President of the East India Telegraph Company, and A. K. McClure, solicitor of the corporation, had an interview with the Secretaries of State and Navy to-day in relation to the introduction of telegraphs into China. The company have a grant, procured by Burlingame when he was a Minister, authorizing them to lay a cable between Canton and Shanghae, thus connecting the commercial city of the Asiatic coast by telegraph. They have five hundred miles of cable ready to ship and lay down, and will have the remaining five hundred ready during the summer. Orders will be issued to the commander of the Asiatic squadron to render all necessary aid and protection. The State Department will instruct our Minister and Consuls to give official aid to the enterprise. This line will be completed the present year. By that time there will be a continuous line from the Mediterranean by way of India to China, thus connecting the cities of the coast with Europe and America.

More Copperhead Nonsense.

CHICAGO, May 7.—The Ohio Legislature has passed, by a strict party vote, the visible admixture bill, which punishes with one to five years imprisonment any one not a white male citizen voting at any election.

Chicago News.

Yesterday afternoon the scaffolding of a church in process of erection on Indiana avenue in this city, fell, precipitating three workmen thirty feet to the ground. One was fatally and the other two seriously injured.

A singular case of attempted suicide has just come to light in this city. Three months ago Mrs. Dora Smith, 62 years of age, wife of one of the wealthiest citizens of the West Division, committed suicide by cutting her throat. The case was kept as quiet as possible and did not get into the papers. Her daughter Jennie, an accomplished and highly esteemed young lady, was greatly affected by her mother's death and expressed a strong hope that she would soon follow. She was a victim of repeated attacks of paralysis. Her skin assumed a grayish, parchment like hue, and her entire system was greatly disordered. She was afflicted with repeated vomiting symptoms, which baffled the skill of the physicians until the family doctor one day analyzed the matter vomited and found it contained phosphorus and arsenic. The young lady pretended to be astonished and could not tell how the articles were administered, but finally finding the servants were suspected, confessed that she had taken them intentionally, seeking death by slow poison. Her present condition is very precarious. Her body is almost completely paralyzed and the lower limbs are very dropsical. The physician's opinion is that both the suicide of the mother and the subsequent conduct of the daughter result from insanity.

Miscellaneous.

HARTFORD, May 7.—A special meeting of the Repeal League was held last night. Much diversity of opinion prevailed. One member read a paper on annexation, but no action was taken by members of the Government, who denied it was intended to accept the situation. It was resolved to hold a convention of delegates from various leagues in the province shortly.

NEW YORK, May 9.—Wallace, a reporter, has had his pocket picked in a horse car of $2,600 and a gold watch.

ALBANY, May 7.—The bill to amend the metropolitan excise is defeated.

The Senate bill to remove the capital to New York, was lost in the Assembly.

CINCINNATI, May 7.—A bold attempt was made to assassinate a policeman on his beat at 1 o'clock this morning. Matthew McCarthy, a desperado often before the court for assault and battery, stole up behind officer Bennett and placed four shots within two inches of his head and snapped twice without discharging. Bennett turned and collared him, knocked him down with his mace and got in two more blows, when two bystanders interfered and prevented a fatal result. McCarthy is badly but not mortally wounded about the head. He was taken to the station house and the charge of attempted assassination was lodged against him.

Delegates from the Saloon Keepers' Society met in convention at Turner Hall last evening. St. Louis, Chicago, Cincinnati, Springfield, Ill., Louisville, Covington and Jeffersonville, Indiana, were represented. The last rail has been laid on the Chicago and Rock Island Pacific Railroad, between Des Moines and Council Bluffs, giving Chicago two direct and distinct connections with the Union Pacific Railroad at Omaha.

A heavy hail storm occurred in Southern Illinois on Wednesday night and greatly injured vegetables, strawberries and other crops. The ground was covered in many places to a depth of two feet with hail stones, which were uncommonly large and crushed all the vegetables before them. The storm extended south to Memphis.

WASHINGTON, May 8.—A dispatch says the State Department received a report from a Government officer in New York, in reference to the story in regard to the departure of the steamer *Arago*, laden with arms and munitions of war and carrying a thousand men, destined for the insurgents in Cuba. Secretary Fish is well informed in regard to the steamer and had previously been notified by the Peruvian Minister that he had purchased or chartered the *Arago* to convey stores to his government. She sailed with regular papers and with no attempt at concealment. The report that she had on board a regiment of men and large amounts of arms, etc., created much amusement between Minister Garcia and the Secretary of State. The steamer did not have a soldier on board. A small amount of powder, some ammunition and certain commercial stores composed her cargo. She carried only her regular crew and sailed under the auspices of the Peruvian government, and cannot without violation of good faith be used except in the manner specified in her papers.

Destructive Fire.

ST. LOUIS, May 8.—H. B. Wilkes' Livery stable, corner of 6th and Myrtle streets, was burned early this morning, and forty-five horses and mules consumed. Loss about $12,000. The papers in the Medical College were badly damaged and the museum of the Academy of Science building suffered loss to the extent of $15,000. The estimated loss by the fire is $75,000. The Academy of Science building is almost totally destroyed, involving a loss of $50,000, with no insurance.

From Alaska.

CHICAGO, May 8.—A *Tribune* special says Government has received a late report from General Davis, commanding Alaska. He gives further reports regarding the burning of an Indian village, but the main fact is denied, and he makes no allusion to any irregularities among the officers. The authorities have no official information concerning the alleged disgraceful conduct of certain officers stationed there.

South America.

Jas. H. McCully, American Consul at Callao, died of yellow fever at Lima, April 17.

The yellow fever was diminishing in port. It had disappeared from Arica.

Two heavy shocks of earthquake at Quito on the 10th. Shocks were also felt at San Salvador. No damage done.

The Bolivia Government has contracted for the construction of a road from Potosi to Cobija, on the Pacific coast, with an important branch road. Port Madina, in the Island of Rewratan, will be closed to stop contraband trade.

Spain and the United States.

WASHINGTON, May 8.—The Spanish Minister has been applied to within the last two months to report and state the expeditions fitting out in this country for Cuba service. He did not produce proof. The Secretary, however, has directed inquiries to be made North and South, when it has been ascertained there were no facts upon which to found proceedings. Proper officers have been instructed to exercise due vigilance and prevent a violation of the neutrality laws, which the Government has assured the Spanish Minister will be enforced.

BY ATLANTIC CABLE.

LONDON, May 6, Midnight.—In the House of Commons this evening Otway, the under Secretary of foreign affairs, in reply to a question, said that instructions had been sent to the British Minister at Madrid in regard to the seizure of the brig *Mary Lowell*, but they could not be made known in debate in the Commons.

On Sir George Jenkinson's motion to strike out the clause providing for compensation for Maynooth College from the church fund, Gladstone protested against the inconsistent conduct of members who voted for the grant to the Presbyterians and opposing compensation for the Catholics, and consenting to make use of religious prejudice among members to defeat Government, which was dealing out equal justice to all.

A discussion ensued on the advisability of drawing compensation for Maynooth College from the consolidated or church funds.

Bright opposed placing an additional burthen on the tax payer.

Disraeli supported the grant, but urged that it be paid from the consolidated funds of the Government.

The majority against Jenkinson is 126.

A. G. Town, liberal member, moved that compensation for Maynooth College should be taken from annuities instead of from the capital sum.

After a long discussion the House again divided for the amendment—198 against 35.

Other amendments were proposed and withdrawn, and the clauses in regard to Maynooth Colleges, as originally introduced by Gladstone, were adopted.

LONDON, May 7.—At the Chester Races for the Steward's plate, "Knight of the Garter" beat "Breakwater."

The House of Commons finished the consideration of the Irish Church bill.

In committee in the House of Lords to-night, the Marquis of Salisbury wanted to know if Her Majesty's government indorsed the policy advocated by Bright to the effect that the people must be placed in possession of the land in Ireland in great numbers? He said the present uncertainty as to the position of the Government on the question was injurious.

Earl Granville, in reply, said he must decline to open the question. A bill on the subject will be introduced at the next session of Parliament. He assured the House that the Government would maintain the rights of property.

LONDON, May 8.—The stock market within a few days has been influenced by the increase in the rate of interest by the Bank of England to four and one-half per cent., and the current belief is that a further advance will be made shortly, owing to political uncertainty.

CORK, May 7.—The town Council adopted, to-day, a protest against the bill introduced in the House of Commons, disabling O'Sullivan, the present Mayor of the city, from performing the functions of a magistrate, also resolved to engage counsel to oppose the bill. O'Sullivan is announced as a candidate for the seat in the House of Commons for Gouhal.

MADRID, May 7.—In the Cortes yesterday, all the amendments to the religious clauses of the Constitution were rejected and the clauses as they stood originally were adopted. The Directory is proposed to consist of Serrano, Rivero and Olozaga, with Prim at his head as President and Minister of War.

MADRID, May 8.—Certain proposals have been made in the Cortes to name Marshal Serrano, Regent. Gen. Prim, Post Consul and Minister of War until a king is elected.

In the Cortes yesterday, Prim pronounced as utterly false, the rumor that he meditated an attempt against the Liberal regime. He declared that the future would prove that honor and liberty was his motto.

It is reported that General Cabrera, a noted Carlist, has been captured at Catalona. The condition of national finances caused much anxiety. The estimated expenditures will exceed the revenue [illegible].

CONSTANTINOPLE, May 8.—Wednesday, the 5th of May, was the Mohamedan New Year's day. The Sultan, according to custom, received the Ministers of foreign powers and made an address of a most pacific character. He referred with great satisfaction to the favorable settlement of difficulties with Greece, the pacification of Crete, and the friendly relations of Turkey with all foreign powers. He said he should continue to insist on economy of administration, improvement of judicial procedure, and the equal participation of all classes of the subjects in the obligations and benefits of these reforms. The Cretan chieftains have been pardoned and set free.

BRUSSELS, May 8.—The Senate refused to pass the bill abolishing imprisonment for debt. Perat, Minister, tendered his resignation, though he was urged to remain in office. He refuses unless the Senate is dissolved.

FLORENCE, May 8.—A new Cabinet has been formed, General Menebrea as President, Minghetti, Minister of Foreign Affairs, Ferraris, Minister of Interior, [illegible] Minister of Justice, [illegible]. There will probably be no change in the [illegible] of the war, marine, or finance departments.

Alexander H. Stephens' history of the civil war has had a sale of 51,000 copies.

[T]he President's Suggestions on Reconstruction

[HI]S MESSAGE TO CONGRESS ASKING FOR LEGISLATION FOR THE OUTSIDE STATES.

To the Senate and House of Representatives: While I am aware that the time in which Congress proposes now to remain in session is very brief, and that it is its desire, as far as consistent with the public interest, to avoid entering upon the general business of legislation, there is one subject that concerns so deeply the welfare of the country, that I deem it my duty to bring it before you.

I have no doubt you will concur with me in the opinion that it is desirable to restore the States which were engaged in rebellion to their relations to the government and the country at as early period as the people of those States shall be found willing to become peaceful and orderly communities, and to adopt and maintain such constitutions and laws as will effectually secure the civil and political rights of all persons within their borders.

The authority of the United States, which has been vindicated and established by the military power, must undoubtedly be asserted for the absolute protection of all its citizens in the full enjoyment of freedom and security, which is the object of a republican government, but whenever the people of a rebellious State are ready to enter in good faith upon the accomplishment of this object in entire conformity with the constitutional authority of Congress, it is certainly desirable that all causes of irritation should be removed as promptly as possible, that a more perfect union be e[stab]lished and the country be restored to peace and prosperity.

The convention of the people of Virginia, which met in Richmond December 3, 1867, framed a c[onstitut]ion for that State, which was adopted by the convention on the 7th of April, 1868, and I desire respectfully to call the attention of Congress to the propriety of providing by law for the h[oldin]g of an election in that State at some time during the months of May and June next under the direction of the military commander of the district, at which the question of the adoption of that constitution shall be submitted to the citizens of the State, and if this should seem desirable, I would recommend that a separate vote be taken upon such parts as may be thought expedient, and that at the same time and under the same authority, there shall be an election for the officers provided under such constitution, and that the constitution, or such parts thereof as shall have been adopted by the people, be submitted to Congress on the first Monday of December next for its consideration, so that if the same is then approved, the necessary steps will have been taken for the restoration of Virginia to its proper relations to the Union.

I am led to make this recommendation from the confident hope and belief that the people of that State are now ready to co-operate with the National Government in bringing it into such relations with the Union as it ought, as soon as p[ossi]ble to establish and maintain, and to give all its people those equal rights under the law which are asserted in the Declaration of Independence, in the words of one of her most illustrious sons.

I desire also to ask the consideration of Congress to the question whether there is not just [reas]on for believing that the Constitution framed by a convention of the people of Mississippi for that State and once rejected, might not be again submitted to the people of that State in like manner, and with the probability of the same result.

U. S. GRANT.

WHAT THE WOMEN WILL DO.—Women have been listening, thinking, studying Philosophy, Hebrew, Greek, first principles, and when [the]y translate the Bible for themselves we shall have a new evangel of womanhood, wifehood and motherhood. When woman understands the science of life, she will see the wisdom of the command, "Be ye not unequally yoked," and of the solemn warning given mid the the thunder of Mount Sinai, "The sins of the fathers shall be visited upon the children." If the Bible teaches one lesson, it is a pure and holy marriage, in which weakness and vice, rum, tobacco, disease and lust can have no part whatsoever.

But we see drawings of a better day in the church. Many of the most profound thinkers are giving to the inspired pages a higher and holier interpretation of woman's mission. The Methodist church, among the first in every step of progress, has already dropped the word "obey" from its marriage service, and the orthodox clergy, more generally than those called liberal, are now taking part, with pen and tongue, in the grand discussion for the enfranchisement of women and everywhere crowding the platforms in our conventions. Henry Ward Beecher, who since the war, has steadily demanded the recognition of woman in the reconstruction, begun long ago to treat her as an equal in the marriage service. In Plymouth church women are deaconesses, have a voice in its business matters, speak, and pray in the weekly meetings.—*Revolution.*

A CASE OF SPONTANEOUS COMBUSTION.—The New Orleans *Crescent* relates a case of spontaneous combustion which occurred in that city. The victim, one Gaston Luylay, a Frenchman who was an excessive drinker, was known to absorb as much as fourteen bottles of claret in one day. Luylay became so degraded that he became a mere hanger-on at a low saloon. During one of his horrible debauches he was discovered in the act of drinking from a can containing coal oil. The physicians who attended him [were un]able to divine the nature of his complaint. The victim uttered the most heart-rending screams, complained of intense stinging pains and died in the greatest agony. His whole frame was convulsed and slightly distorted, the body in a state of ebullition, as it were, and covered with blisters, which bursting, a lot of liquid of yellowish red color trickled from them to the floor. When death ensued the body became perfectly dried up and shrunken, and as black as charcoal. The Coroner's inquest brings out the above statements.

Jomini, the great military writer, is dead. He died a few days ago, at Passy, in France. He was some days more than ninety years old. Jomini was born in Switzerland, and entered the French regular army the year before Austerlitz. He served under Ney in Germany and Spain; but, in consequence of frequent quarrels with Ney and Berthier, he left the French army and took service under Alexander of Russia. He remained in the Russian service for many years. Of late he lived chiefly in Brussels and Paris. His books on the art of war are counted among the foremost standard works.

HIRAM SMITH'S
Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.
It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.
It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

R. B. MOORE,	NATHANIEL BELL,
A. L. WALLACE,	G. R. WARD,
Mrs. MONTGOMERY,	JOHN M. HOLLOWAY,
W. D. PORTER,	ROB'T RAMSEY,

And others in that vicinity.
Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

PROSPECTUS

OF THE

Weekly Oregonian.

FOR 1869.

Nineteenth Volume!

Only $3.00 a Year.

By common consent, the OREGONIAN ranks first among the papers published in the Northwest It is the oldest paper in the State, and its circulation and influence are greater than that of any other two papers combined As a journal of enterprise in gathering the latest intelligence, and in giving in each issue a larger amount and greater variety of reading matter it has no competitor It is thoroughly identified with this city and State and neighboring Territories, where the number of its readers and its influence are constantly increasing.

An unflinching advocate of sound Union principles, it at the same time pays special attention not only to MATTERS OF GENERAL INTEREST, but to everything of moment to the great

Agricultural, Manufacturing,

AND MINING INTERESTS,

And to the development of the resources and settlement of the Northwest.

Its columns contain a carefully prepared digest of

NEWS FROM ALL PARTS

OF

Oregon, Washington, Idaho and Montana,

TELEGRAMS FROM

THE EAST AND EUROPE

are published as full as in the California journals, and put before our readers from ONE TO THREE DAYS BEFORE ANY OTHER PAPER IN THE STATE.

Among its corps of writers are regular correspondents at New York and Washington City, men who, having lived in this State, are able to write on Eastern affairs, both politically and commercially from an Oregon standpoint.

Its Literary and General Selections are from the best sources.

EXTENDED AND RELIABLE

Commercial Reports

are furnished every week, giving the Financial, Dry Goods, Hardware, and General Market Reports of Portland, and *the latest reports by Telegraph of the San* Francisco and New York markets. These reports are acknowledged to be the most accurate published in the State.

In every department it will be, as it has been, the foremost in the State in the field of journalism. Being firmly established, it will go forward with confidence, making new plans for improvement and usefulness, and hopes to gain increased circulation and support.

TERMS:

One Year	$3 00.
Six Months	2 00.
Three Months	1 00.

The WEEKLY OREGONIAN has been a favorite paper for mailing to friends in the East. It will be mailed from the office at subscription rates.

Subscribers will find on each paper, with their names, the date on which their subscriptions expire, as entered on our books. In renewing, the name of subscriber and post office should be distinctly written.

All papers are discontinued at the end of the time for which they have been paid, the date of which is always printed with the name each week.

☞ REMIT BY MAIL AT OUR RISK, in presence of Postmaster, or pay to the nearest authorized agent.

We ask our friends to aid us in extending the circulation of the OREGONIAN in every direction.

TO THE UNFORTUNATE,
NEW REMEDIES, NEW REMEDIES
Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and [Semin]al Di[sease]s, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs *successfully treated.*

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, ... fed and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of ... or the enjoyment of life In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are ... any of these horrible life-destroying mal[adies] ... they are cured and cured before it be too late. ... them immediately to Doctor Gibbon a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing ... in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self abuse ... solitary vice, or depraved sexual indulgence, is ... by the youth of both sexes to an almost unlimited ..., producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, ... the rustling of leaves and rattling of chariots ... about the loins, weakness of the limbs, confusion ... blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats monomania and frequent insanity. If relief is not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease which never failed effecting a quick and radical cure Dr. G. will give One Hundred Dollars to any person who will prove ... rily to him that he was cured of his complaint by any of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage, who are ... under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.
DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT ... by addressing a letter to Dr Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from ... curiosity, to any part of the country, with full ... directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus sworn-to certificates, dupe the ... Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and being too lazy to work at their trades Some are tailors, shoemakers, newspaper carriers, intelligence office ... etc Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid ... t on is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are Dr Gibbon does not deceive ... by exhibiting bogus titles, certificates, pretended ... letters, etc Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure
